

2024 IMO HONOURS FOR EXCEPTIONAL BRAVERY AT SEA

Recipients of the Award

1. Captain Avhilash Rawat and the crew of the oil tanker **Marlin Luanda**, nominated by the Marshall Islands, for their extraordinary courage, determination and endurance demonstrated while coordinating fire fighting and damage control efforts to combat the fire that broke out after an anti-ship ballistic missile struck their vessel.

On the evening of 26 January 2024, the **Marlin Luanda**, carrying 84,147 tons of Naphtha, was en route from Suez to Incheon when it was struck by an anti-ship ballistic missile. The explosion ignited a cargo tank, creating a significant fire hazard with flames exceeding 5 metres. Despite the damage, Captain Avhilash Rawat swiftly organized fire-fighting efforts, ensuring the crew's safety and maintaining the ship's navigability amidst the chaos. With the starboard lifeboat destroyed, the remaining crew mustered at the port lifeboat station, ready for potential evacuation. Despite the extreme danger and the constant threat of further attacks, the crew fought the fire using fixed foam monitors and portable hoses. The fire continued to spread, particularly affecting an adjacent tank, but the crew managed to contain it using seawater after foam supplies were exhausted.

After 4.5 hours fighting the fire on their own, assistance arrived from the merchant tanker **Achilles**, and later from the French frigate **FS Alsace** and the United States frigate **USS Carney**, which provided additional fire-fighting foam and support, followed soon after by the Indian warship **INS Visakhapatnam**. Despite relentless efforts by the **Marlin Luanda**'s crew, the fire reignited multiple times. The situation remained critical, and expert consultations suggested abandoning the vessel. However, Captain Rawat and his crew persisted. The turning point came when professionally trained fire-fighters from the Indian Navy boarded the ship. They managed to get closer to the fire due to their superior equipment and their efforts, combined with those of the **Marlin Luanda**'s crew, finally succeeded in extinguishing the fire and sealing a significant hull breach. Twenty-four hours after the missile strike, the **Marlin Luanda** sailed to safety under naval escort.

2. Captain Jorge Fernando Galaviz Fuentes and the crew of the tugboat **Pemex Maya**, nominated by Mexico, for their outstanding courage, seamanship skills and resolve displayed in the rescue of six shipwrecked persons from four different vessels, in extreme weather and heavy seas caused by a hurricane.

On 25 October 2023, hurricane Otis struck Mexico's Pacific coast as an unprecedented category 5 storm. It rapidly intensified from a tropical storm to a major hurricane in just a few hours, hitting Acapulco with winds exceeding 300 km/h and waves over 5 metres high. As the hurricane approached, the crew of the tugboat **Pemex Maya**, led by Captain Galaviz, prepared for the storm by securing their vessel in the Bay of Santa Lucia. The extreme conditions prompted the crew to navigate away from the coast and assist others in distress.

During the peak of the hurricane, the crew of the **Pemex Maya** remained vigilant, searching for survivors amidst the chaos. At 02:30 hours, they navigated towards light signals from three people in lifejackets fighting the turbulent waters and managed to rescue them carrying out complex rescue manoeuvres in darkness.

Shortly after, they rescued another survivor, who was found clinging to a piece of wood without a lifejacket. Continuing their rescue efforts, two more shipwrecked persons were spotted an hour later adrift with lifejackets. The crew had to execute again risky manoeuvres to rescue them with the help of lifebuoys. All six survivors were found to be in shock, exhausted, and suffering from bruises and scratches but fortunately without life-threatening injuries. At dawn, with the worst of the hurricane over, the **Pemex Maya** anchored in Acapulco and the survivors were later transferred for medical attention. Hurricane Otis caused extensive damage to infrastructure and numerous fatalities in Acapulco.

Certificates of Commendation

Captain Jérôme Noël Mougoula Saguiliba, Master of the LCT **Celeste**, nominated by Gabon, for his exceptional ship-handling expertise and determination displayed in the search and rescue operation of 150 passengers and crew members of the sunken passenger ferry **Esther Miracle**. Captain Saguiliba received a distress call and, despite being near his docking point, did not hesitate to rush to the scene to assist. In challenging weather and against a six-knot current, the **Celeste** located distress rockets and, in coordination with the Gabonese Navy, proceeded with the rescue of survivors from seven life rafts, four of them no longer buoyant, amid hazardous debris. Captain Saguiliba expertly manoeuvred his vessel to protect those shipwrecked from drifting objects and, as a result of his actions and resolve, 107 of the 123 survivors were brought to safety.
2. Lieutenant Crépin Manfoumbi Mengara, on board the rapid patrol boat **Mayumba**, Gabonese Navy, nominated by Gabon, for the exemplary leadership and persistence during the search and rescue operation of the **Esther Miracle**. On arrival at the scene, 30 minutes after the LCT **Celeste**, Captain Mengara organized and coordinated separate rescue teams to search for survivors in shark infested waters and at risk of injury by floating debris. His crew focused on those floating on the water first and, despite the challenging circumstances and distressing scenes, they managed to save the lives of 16 shipwrecked persons. The following day, Captain Mengara and his crew commenced recovery efforts, which lasted a month and involved gruelling and hazardous conditions, to ensure no one was left behind. As a result of their continued efforts, the remains of 18 casualties were eventually recovered.
